HULU BEJE
SHIPPING AND DELIVERY POLICY

DOCUMENT ID: HULU-BEJE-KB-002
DOCUMENT TITLE: Shipping & Delivery Policy
DOCUMENT TYPE: Business Knowledge
COMPANY: Hulu Beje
COUNTRY: Ethiopia

==========
1. DOCUMENT PURPOSE
==========

This document explains the general shipping and delivery policies of Hulu Beje.

It covers delivery methods, estimated delivery periods, delivery locations, delivery addresses, delivery fees, delivery instructions, failed deliveries, delayed deliveries, tracking, shipment problems, multiple shipments, and common delivery questions.

Delivery availability and delivery timing may depend on the product, seller, customer location, delivery method, order status, operational conditions, and other applicable circumstances.

General delivery information does not replace the current delivery information associated with a specific order.

==========
2. DELIVERY OVERVIEW
==========

Hulu Beje provides delivery services for eligible orders and locations.

Delivery arrangements may differ depending on:

- Product
- Product availability
- Seller
- Customer location
- Delivery method
- Order size
- Product characteristics
- Operational conditions
- Delivery partner
- Promotional offers
- Current delivery capacity

Customers should review the delivery information displayed during the ordering process before completing a purchase.

Not every product is necessarily available for delivery to every location.

==========
3. DELIVERY METHODS
==========

Hulu Beje may provide different delivery methods depending on the product and customer's location.

General delivery methods include:

1. Standard Delivery
2. Express Delivery
3. Same-Day Delivery

The availability of each method may vary.

A delivery method displayed for one product or location may not necessarily be available for another product or location.

==========

4. STANDARD DELIVERY

==========

Standard delivery is generally estimated at:

3–7 business days.

The estimate begins according to the applicable order processing and delivery arrangements.

Actual delivery time may vary because of:

- Product availability
- Seller processing time
- Customer location
- Delivery partner operations
- Road conditions
- Weather
- Public holidays
- High order volume
- Incorrect or incomplete address information
- Customer availability
- Other operational circumstances

The standard delivery estimate should not automatically be treated as a guaranteed delivery date.

==========

5. EXPRESS DELIVERY

==========

Express delivery is generally estimated at:

1–3 business days.

Express delivery may not be available for every product or location.

Availability may depend on:

- Product eligibility
- Customer location
- Seller fulfillment
- Delivery capacity
- Order time
- Operational conditions

The applicable express delivery option and estimated timing should be reviewed during checkout.

Express delivery does not necessarily guarantee delivery on a specific date or exact time unless the applicable service explicitly provides such a guarantee.

==========
6. SAME-DAY DELIVERY
==========

Same-day delivery may be available for selected products and eligible locations.

Same-day delivery is subject to the cutoff time displayed during checkout.

Customers must place eligible orders before the applicable cutoff time to qualify for same-day delivery.

Same-day delivery availability may depend on:

- Product
- Inventory
- Customer location
- Time of order
- Seller
- Delivery capacity
- Operational conditions

If same-day delivery is not displayed during checkout, customers should not assume that the order qualifies for same-day delivery.

==========

7. DELIVERY ESTIMATES

==========

Delivery estimates are intended to provide customers with an expected delivery period.

Estimated delivery times may change because of circumstances such as:

- Order processing delays
- Product availability
- Seller delays
- Delivery partner delays
- Weather
- Road conditions
- Public holidays
- High demand
- Incorrect address information
- Customer unavailability
- Operational disruptions

An estimated delivery period is not automatically a guaranteed delivery date.

==========

8. BUSINESS DAYS

==========

Delivery estimates expressed in business days generally refer to working days.

Depending on the applicable delivery operation, weekends and public holidays may not count as business days.

Customers should consider public holidays and other non-working periods when estimating the expected delivery period.

==========

9. DELIVERY AVAILABILITY

==========

Delivery availability depends on the destination and product.

A product may be:

- Available for standard delivery
- Available for express delivery
- Available for same-day delivery
- Available only in selected locations
- Available only from certain sellers
- Temporarily unavailable for delivery
- Unavailable for a particular destination

The delivery options shown during checkout provide the applicable delivery information for the order.

==========

10. DELIVERY LOCATIONS IN ETHIOPIA

==========

Hulu Beje is an Ethiopian-based e-commerce company.

Delivery may be available in different areas depending on current service coverage.

Customers should not assume that every city, town, neighborhood, woreda, kebele, rural area, or remote location is automatically covered.

Current delivery eligibility depends on the applicable delivery service and destination.

When a location is not clearly covered, the customer should verify delivery availability before relying on a particular delivery method.

==========

11. ADDIS ABABA DELIVERY

==========

Delivery within Addis Ababa may involve different neighborhoods, sub-cities, woredas, kebeles, roads, buildings, compounds, apartments, offices, and landmarks.

Customers should provide sufficient information to identify their destination.

Useful information may include:

- Sub-city
- Woreda
- Kebele
- Neighborhood
- Street or road

- Building name
- House number
- Apartment number
- Office name
- Floor
- Landmark
- Phone number
- Additional directions

The availability of a particular delivery method may vary by destination.

==========

12. DELIVERY OUTSIDE ADDIS ABABA

==========

Delivery outside Addis Ababa may depend on current service coverage and operational arrangements.

Customers should provide:

- City or town
- Neighborhood
- Administrative area
- Street or road where available
- Building or house information
- Landmark
- Phone number
- Detailed directions

Customers should verify whether the destination is currently eligible for delivery before completing an order when delivery availability is uncertain.

==========

13. REMOTE AND RURAL LOCATIONS

==========

Remote and rural locations may have different delivery conditions from major urban areas.

Factors may include:

- Road accessibility
- Distance
- Courier coverage
- Transportation availability
- Delivery frequency
- Product type
- Weather
- Local conditions

Customers should provide detailed location information and verify delivery availability where necessary.

==========

14. DELIVERY ADDRESS REQUIREMENTS

==========

Customers should provide an accurate delivery address.

A useful delivery address may include:

- Full name
- Phone number
- City
- Sub-city where applicable
- Woreda where applicable

- Kebele where applicable
- Neighborhood
- Street or road
- House number
- Building name
- Apartment number
- Office name
- Floor number
- Landmark
- Additional directions

The more accurate the address, the easier it is for the delivery partner to identify the destination.

==========

15. PHONE NUMBER

==========

A reachable phone number is important for delivery.

The delivery partner may need to contact the customer to:

- Confirm directions
- Locate the destination
- Coordinate delivery
- Resolve access problems
- Confirm customer availability
- Address delivery difficulties

Customers should provide a valid phone number and remain reachable during the expected delivery period.

==========

16. LANDMARKS

==========

Landmarks can be particularly useful when a formal street address is difficult to identify.

Useful landmarks may include:

- Major roads
- Well-known buildings
- Schools
- Hospitals
- Hotels
- Shopping centers
- Religious buildings
- Public facilities
- Recognizable businesses
- Other established local landmarks

A landmark should preferably be accompanied by additional address information.

A landmark alone may not always be sufficient to locate a destination.

==========

17. APARTMENT AND MULTI-UNIT BUILDINGS

==========

Customers living in apartments or multi-unit buildings should provide:

- Building name
- Building number where applicable
- Apartment number
- Floor
- Compound name

- Entrance information
- Landmark
- Phone number

Customers should provide instructions for accessing the correct building when necessary.

==========

18. OFFICE AND BUSINESS ADDRESSES

==========

Customers ordering products for offices or businesses should provide enough information for delivery personnel to identify the destination.

Useful information may include:

- Company name
- Building name
- Office number
- Floor
- Reception information
- Street
- Landmark
- Phone number
- Contact person where appropriate

Customers should ensure that someone authorized to receive the package is available when required.

==========

19. COMPOUNDS AND GATED LOCATIONS

==========

For gated compounds or locations with restricted access, customers should provide:

- Compound name
- Entrance information
- Building number
- Unit number
- Security or reception instructions where appropriate
- Reachable phone number

Delivery may be delayed if the delivery partner cannot obtain access to the location.

==========

20. SCHOOLS AND EDUCATIONAL INSTITUTIONS

==========

Customers using schools, universities, colleges, or other educational institutions as delivery locations should provide:

- Institution name
- Campus
- Building
- Department or office where applicable
- Specific location
- Contact information
- Landmark

Delivery access may depend on the institution's operating hours and access procedures.

==========

21. HOSPITALS AND HEALTHCARE FACILITIES

==========

Customers using healthcare facilities as delivery locations should provide:

- Facility name
- Building
- Department where applicable
- Entrance
- Floor or unit
- Contact information
- Landmark

Delivery personnel may need to follow facility access procedures.

==========

22. HOTELS AND TEMPORARY ACCOMMODATION

==========

Customers staying at hotels or other temporary accommodation should provide:

- Hotel or accommodation name
- Room information where appropriate
- Reception information
- Phone number
- Landmark
- Expected availability for receiving the delivery

Customers should ensure that the accommodation can receive packages on their behalf.

==========

23. ADDRESS ACCURACY

==========

Customers are responsible for providing accurate delivery information.

An incorrect address can result in:

- Delivery delay
- Failed delivery
- Additional delivery attempts
- Rescheduling
- Difficulty locating the customer
- Return of the shipment

Customers should review their address carefully before completing an order.

==========
24. ADDRESS CHANGES
==========

Customers should provide the correct address before completing an order.

An address change may be possible before an order is sufficiently processed.

Once an order has been packed or shipped, changing the delivery address may no longer be possible.

Customers who discover an incorrect address should contact support as soon as possible.

==========
25. ORDER ADDRESS VS ACCOUNT ADDRESS
==========

A customer may have one or more saved addresses in their account.

The address associated with a particular order is the address used for that order.

Changing a saved account address does not necessarily change the address of an existing order.

Customers should verify the delivery address associated with the specific order.

==========

26. DELIVERY INSTRUCTIONS

==========

Customers may provide useful delivery instructions such as:

- Preferred entrance
- Nearby landmark
- Building instructions
- Floor number
- Apartment number
- Office information
- Safe contact point
- Other practical directions

Instructions should be clear and reasonable.

Delivery instructions do not necessarily override safety, security, access, or operational requirements.

==========

27. DELIVERY FEES

==========

Delivery fees may vary depending on:

- Delivery location
- Product

- Seller
- Delivery method
- Order size
- Promotional campaign
- Operational conditions

Applicable delivery fees should be shown during the ordering process when available.

Customers should review the final order amount before completing the purchase.

==========

28. FREE DELIVERY

==========

Free delivery may be available through certain products, promotions, campaigns, or other applicable conditions.

Free delivery should not be assumed for every order.

If a free-delivery promotion is available, the customer should review its conditions.

Conditions may include:

- Minimum order value
- Selected products
- Selected sellers
- Selected locations
- Promotional period
- Specific delivery method

==========

29. DELIVERY TO MULTIPLE ADDRESSES

==========

Different products may need to be ordered separately when they are intended for different delivery addresses.

Customers should review the applicable ordering process when purchasing products for multiple destinations.

One order may not necessarily support multiple delivery addresses.

==========
30. MULTIPLE PRODUCTS IN ONE ORDER
==========

Products in the same order may not always arrive together.

This may happen when:

- Products come from different sellers
- Products have different fulfillment arrangements
- Products are stored in different locations
- Products have different delivery schedules
- Products require separate handling

Customers should check their order information when deliveries arrive separately.

==========
31. SPLIT SHIPMENTS
==========

A split shipment means that different products from an order are delivered separately.

Customers should not automatically assume that a missing item has been lost simply because another product has already arrived.

The customer should check available shipment information.

If an item remains missing beyond the expected delivery period, the customer should contact support.

==========

32. DELIVERY PARTNERS

==========

Hulu Beje may use delivery partners or logistics providers depending on the applicable delivery arrangement.

The delivery partner may handle activities such as:

- Shipment transportation
- Customer contact
- Delivery attempts
- Delivery confirmation
- Delivery coordination

The exact delivery partner may vary by order.

==========

33. DELIVERY ATTEMPTS

==========

A delivery attempt may occur when the delivery partner reaches the destination or attempts to contact the customer.

A delivery may not be completed when:

- Customer is unavailable

- Phone cannot be reached
- Address is incorrect
- Address is incomplete
- Location cannot be identified
- Access is restricted
- Other delivery conditions prevent completion

Additional delivery arrangements may be required.

==========

34. CUSTOMER UNAVAILABILITY

==========

Customers should remain reachable around the expected delivery period.

If the customer is unavailable, delivery may be:

- Rescheduled
- Attempted again
- Redirected according to applicable arrangements
- Returned after unsuccessful attempts

The specific outcome depends on the delivery circumstances.

==========

35. COURIER CANNOT FIND THE ADDRESS

==========

If a courier cannot locate the address, the customer may be contacted for additional directions.

Customers can provide:

- Landmark
- Road
- Building
- Neighborhood
- Nearby known location
- Additional directions

If the destination remains difficult to identify, delivery may be delayed or rescheduled.

==========

36. INCORRECT ADDRESS

==========

An incorrect address can cause delivery problems.

Customers should contact Hulu Beje support as soon as they discover an address problem.

If the order has not yet been shipped, an address correction may be possible.

If the order has already been shipped, correction may be more difficult.

==========

37. INCOMPLETE ADDRESS

==========

An incomplete address may prevent successful delivery.

Examples include:

- Missing phone number
- Missing building number
- Missing apartment number

- Missing neighborhood
- Missing landmark
- Missing city
- Missing directions

Customers should provide sufficient information to identify the destination.

==========

38. UNREACHABLE CUSTOMER

==========

If the delivery partner cannot reach the customer, the delivery may not be completed.

Customers should:

- Keep their phone available
- Answer delivery calls
- Provide accurate contact information
- Follow delivery instructions

Repeated failed contact attempts may result in rescheduling or other delivery action.

==========

39. DELIVERY RESCHEDULING

==========

A delivery may sometimes need to be rescheduled because of:

- Customer unavailability
- Incorrect address
- Delivery partner issue
- Weather
- Road conditions

- Operational circumstances

The available rescheduling options depend on the specific shipment and delivery arrangement.

==========

40. DELIVERY DELAYS

==========

Delivery delays can occur for several reasons.

Possible causes include:

- High order volume
- Product availability
- Seller processing delay
- Courier delays
- Weather
- Road conditions
- Public holidays
- Incorrect address
- Customer unavailability
- Transportation issues
- Operational disruptions

A delay does not necessarily mean that an order has been lost.

==========

41. WEATHER AND ROAD CONDITIONS

==========

Weather and road conditions can affect delivery operations.

Examples include:

- Heavy rain
- Flooding
- Difficult road conditions
- Road closures
- Transportation disruptions
- Other environmental conditions

When such conditions occur, delivery may take longer than originally estimated.

==========

42. PUBLIC HOLIDAYS

==========

Public holidays can affect:

- Order processing
- Seller operations
- Courier operations
- Payment processing
- Customer support availability
- Delivery schedules

Customers should consider applicable holidays when evaluating delivery estimates.

==========

43. TRACKING INFORMATION

==========

Where tracking is available, customers may receive information about shipment progress.

Tracking information may include:

- Shipment reference
- Order number
- Current status
- Shipment progress
- Delivery status
- Delivery updates

Tracking information may not update immediately after every movement.

==========

44. TRACKING NOT UPDATING

==========

Tracking information may remain unchanged temporarily.

Possible reasons include:

- Shipment has not reached the next scanning point
- Courier system delay
- Transportation in progress
- Operational delay
- System update delay

If tracking remains unchanged for an unusually long period, the customer may contact support.

==========

45. ORDER MARKED AS DELIVERED

==========

If an order is marked as delivered, the customer should check whether:

- Another household member received it
- Building reception received it
- Security personnel received it
- An authorized person received it
- The package was delivered to the stated location

If the package cannot be located, the customer should contact support promptly.

==========
46. DELIVERED BUT NOT RECEIVED
==========

A customer who has not received a package despite a delivered status should report the issue.

Useful information includes:

- Order number
- Delivery address
- Delivery date
- Product
- Any delivery notification
- Whether other people could have received the package

The matter may require investigation.

==========
47. LOST SHIPMENTS
==========

If a shipment appears to be lost, the customer should contact support.

The case may require review of:

- Order information
- Shipment information
- Tracking history
- Delivery attempts
- Delivery address
- Courier records

The applicable resolution depends on the investigation and relevant policies.

==========

48. DAMAGED SHIPMENTS

==========

Customers should report products damaged during delivery as soon as reasonably possible.

Useful information may include:

- Order reference
- Product name
- Description of damage
- Photographs
- Packaging condition
- Delivery information

The applicable return, replacement, or refund process may then be reviewed.

==========

49. WRONG SHIPMENT

==========

If a customer receives the wrong product, the customer should contact support.

Examples include:

- Wrong product
- Wrong model
- Wrong size
- Wrong color
- Wrong quantity
- Wrong variant

Customers should keep the received product and packaging in an appropriate condition while the issue is being reviewed.

==========
50. MISSING ITEMS
==========

If one item from a multi-item order has not arrived, the customer should first check whether the order was divided into multiple shipments.

If the item should already have arrived and remains missing, the customer should contact support.

==========
51. LARGE OR HEAVY PRODUCTS
==========

Large or heavy products may have special delivery conditions.

These may include:

- Special transportation

- Additional handling
- Different delivery timing
- Delivery access requirements
- Additional delivery charges

Customers should review product-specific delivery information when available.

==========
52. FRAGILE PRODUCTS
==========

Fragile products may require special handling.

Customers should inspect fragile products after delivery.

If a fragile product arrives damaged, the customer should report the issue promptly and provide relevant information.

==========
53. PERISHABLE OR TIME-SENSITIVE PRODUCTS
==========

Some products may have special handling or delivery requirements because of their nature.

Customers should review product-specific information for:

- Storage requirements
- Delivery conditions
- Expected delivery timing
- Return restrictions
- Product handling

Not all products are subject to the same return or delivery conditions.

==========

54. RESTRICTED PRODUCTS

==========

Certain products may have special delivery restrictions because of their characteristics or applicable requirements.

Customers should follow the product-specific delivery and handling information.

The availability of a product does not necessarily mean that it can be delivered using every delivery method.

==========

55. PICKUP LOCATIONS

==========

Where pickup services are available, customers may be given instructions about:

- Pickup location
- Pickup time
- Required order information
- Identification requirements where applicable
- Pickup deadlines

Customers should follow the instructions provided for the specific pickup arrangement.

Pickup availability is not necessarily available for every order.

==========

56. P.O. BOXES

==========

A P.O. Box may not always be suitable for physical product delivery.

Customers should provide a physical delivery location when required.

If a customer is unsure whether a P.O. Box can be used, the customer should verify the applicable delivery requirements before completing the order.

==========

57. LANDMARK-ONLY ADDRESSES

==========

A landmark-only address may be insufficient for some deliveries.

Customers should combine landmarks with:

- City
- Neighborhood
- Road
- Building
- House number
- Phone number
- Directions

Providing multiple location details can reduce delivery difficulties.

==========

58. DELIVERY TIME WINDOWS

==========

Some deliveries may have a specified time window.

Customers should be available during the applicable delivery period when required.

Exact delivery times may be affected by:

- Number of deliveries
- Traffic
- Weather
- Customer location
- Road conditions
- Operational circumstances

Unless explicitly guaranteed, a delivery time should be treated as an estimate.

==========
59. SAME-DAY CUTOFF TIME
==========

Same-day delivery is subject to the cutoff time displayed during checkout.

Customers should place an eligible order before the applicable cutoff.

If the cutoff has passed, same-day delivery may no longer be available for that order.

The cutoff may vary according to current operating conditions.

==========
60. DELIVERY FEES AND PROMOTIONS
==========

Delivery fees may be affected by promotional campaigns.

Examples include:

- Free delivery

- Reduced delivery fees
- Location-based promotions
- Product-specific delivery offers
- Minimum-order free delivery

Customers should review the promotion conditions before relying on a delivery offer.

==========
61. DELIVERY AND SELLER RESPONSIBILITY
==========

Depending on the marketplace arrangement, delivery may involve Hulu Beje, a seller, a logistics provider, or a combination of parties.

Responsibilities can vary by:

- Product
- Seller
- Fulfillment arrangement
- Delivery method
- Location

Customers should use the order information and support process for questions about a specific shipment.

==========
62. SELLER FULFILLMENT
==========

Some sellers may prepare products for shipment themselves.

Seller fulfillment may affect:

- Processing time
- Packaging
- Shipment timing
- Delivery schedule
- Product-specific delivery conditions

The customer should review the applicable product and order information.

==========
63. DELIVERY FOR MARKETPLACE ORDERS
==========

Marketplace orders may involve multiple sellers.

Products from different sellers may have:

- Different processing times
- Different delivery schedules
- Different delivery partners
- Separate shipment tracking
- Different return conditions

Customers should review the information associated with each product.

==========
64. DELIVERY CANCELLATION
==========

If an order is cancelled before shipment, delivery will normally not proceed.

If an order has already been shipped, cancellation may require additional handling.

Customers should contact support as soon as possible if they want to cancel an order.

==========

65. DELIVERY AFTER CANCELLATION REQUEST

==========

Submitting a cancellation request does not necessarily mean that shipment has already been stopped.

If the order is already in fulfillment or shipment, the customer may need to follow the applicable return or refusal process.

The specific resolution depends on the order status.

==========

66. CUSTOMER RESPONSIBILITY FOR DELIVERY

==========

Customers should:

- Provide accurate address information
- Provide a valid phone number
- Remain reachable
- Provide useful delivery instructions
- Be available when necessary
- Review delivery information
- Report delivery problems promptly

Providing incorrect or incomplete information can contribute to delivery delays.

==========

67. DELIVERY PRIVACY

==========

Customers should avoid sharing unnecessary personal information when discussing delivery issues.

Only relevant delivery information should be provided.

Customers should not share:

- Passwords
- Authentication codes
- OTPs
- CVV/security codes
- Full payment card numbers

A delivery issue normally does not require these credentials.

==========

68. DELIVERY SUPPORT

==========

Customers may contact support for assistance with:

- Delayed delivery
- Missing shipment
- Incorrect address
- Failed delivery
- Wrong product
- Damaged product
- Missing item
- Tracking problems
- Delivery availability
- Delivery charges
- Rescheduling
- Other delivery questions

Customers should provide the order reference and relevant delivery information when contacting support.

==========

69. DELIVERY ISSUE INFORMATION

==========

When reporting a delivery issue, customers may provide:

- Order number
- Product name
- Delivery address
- Phone number
- Tracking reference
- Delivery date
- Description of the issue
- Relevant photographs
- Other useful information

Customers should avoid providing unnecessary sensitive information.

==========

70. DELIVERY FAQ

==========

QUESTION:
How long does standard delivery take?

ANSWER:
Standard delivery is generally estimated at 3–7 business days.

QUESTION:

How long does express delivery take?

ANSWER:
Express delivery is generally estimated at 1–3 business days.

QUESTION:
Can I get my order today?

ANSWER:
Same-day delivery may be available for selected products and eligible locations when the order is placed before the applicable cutoff time shown during checkout.

QUESTION:
Does every product have same-day delivery?

ANSWER:
No. Same-day delivery is limited to selected products and eligible locations.

QUESTION:
Can I get express delivery everywhere?

ANSWER:
Express delivery availability depends on the product and destination.

QUESTION:
Why is my delivery late?

ANSWER:
Delivery can be delayed by product processing, seller fulfillment, courier operations, weather, road conditions, holidays, address problems, customer availability, or other operational circumstances.

QUESTION:

Can you guarantee that my order arrives on a specific date?

ANSWER:
Delivery estimates are generally not guaranteed unless the applicable delivery service specifically provides a guarantee.

QUESTION:
What should I do if the courier cannot find me?

ANSWER:
Provide additional directions, a useful landmark, and remain reachable by phone.

QUESTION:
What if I entered the wrong address?

ANSWER:
Contact support as soon as possible. Whether the address can be changed depends on the current order status.

QUESTION:
Can I change the address after shipment?

ANSWER:
An address change may be difficult or unavailable after shipment. Contact support as soon as possible.

QUESTION:
Can I use a landmark?

ANSWER:
Yes. A landmark can help identify a destination, but it is better to provide additional address details as well.

QUESTION:
Can I use only a landmark?

ANSWER:
A landmark alone may not always be sufficient. Provide the city, neighborhood, road, building, phone number, and other useful details when possible.

QUESTION:
What if I am not home?

ANSWER:
The delivery may need to be rescheduled or handled according to the applicable delivery process.

QUESTION:
What if my phone is unreachable?

ANSWER:
The delivery partner may be unable to coordinate the delivery. Customers should remain reachable during the expected delivery period.

QUESTION:
My order says delivered but I did not receive it. What should I do?

ANSWER:
Contact customer support promptly so the delivery can be investigated.

QUESTION:
One item arrived but another did not. Is it lost?

ANSWER:
Not necessarily. The order may have been split into multiple shipments. Check the available shipment information first.

QUESTION:
What if my package is damaged?

ANSWER:
Contact support and provide the order information and details about the damage.

QUESTION:
What if I received the wrong product?

ANSWER:
Contact support and provide the relevant order and product information.

QUESTION:
Can delivery fees change?

ANSWER:
Delivery fees may vary according to location, product, seller, delivery method, order conditions, and applicable promotions.

QUESTION:
Is free delivery available?

ANSWER:
Free delivery may be available for selected products, locations, orders, or promotions.

QUESTION:
Do weekends count as business days?

ANSWER:
Business-day calculations generally refer to working days, and weekends or public holidays may not count.

QUESTION:
Can holidays delay delivery?

ANSWER:
Yes. Public holidays can affect order processing, courier operations, and delivery schedules.

QUESTION:
Can weather delay delivery?

ANSWER:
Yes. Weather and road conditions can affect delivery operations.

QUESTION:
Can I track my order?

ANSWER:
Tracking may be available depending on the order and delivery arrangement.

QUESTION:
Why has tracking not updated?

ANSWER:
Tracking information may take time to update while a shipment is in transit or while delivery systems process new information.

QUESTION:
Can multiple products arrive separately?

ANSWER:
Yes. Products may arrive separately when they come from different sellers or fulfillment arrangements.

QUESTION:
Can I request a specific delivery time?

ANSWER:
Delivery timing depends on the available delivery options and operational arrangements.

QUESTION:
Can I deliver to an office?

ANSWER:
Office delivery may be possible where the location is eligible. Customers should provide the company name, building, floor, office, landmark, and contact information where applicable.

QUESTION:
Can I deliver to a hotel?

ANSWER:
Hotel delivery may be possible where the location is eligible. Customers should provide the hotel name, relevant room or reception information, and a reachable phone number.

QUESTION:
Can I deliver to a school?

ANSWER:
Delivery may depend on location eligibility and the institution's access arrangements.

QUESTION:
Can I deliver to a hospital?

ANSWER:
Delivery may depend on location eligibility and the facility's access procedures.

QUESTION:
Can I deliver to a rural area?

ANSWER:
Delivery availability depends on current service coverage and operational conditions.

QUESTION:
Can I use a P.O. Box?

ANSWER:
A P.O. Box may not be suitable for physical product delivery. A physical delivery location may be required.

==========
71. COMMON DELIVERY SCENARIOS
==========

SCENARIO 1:
Customer asks for standard delivery.

GENERAL INFORMATION:
Standard delivery is generally estimated at 3–7 business days.

SCENARIO 2:
Customer asks for express delivery.

GENERAL INFORMATION:
Express delivery is generally estimated at 1–3 business days where available.

SCENARIO 3:
Customer asks for same-day delivery.

GENERAL INFORMATION:

Same-day delivery is available only for selected products and eligible locations and is subject to the cutoff time shown during checkout.

SCENARIO 4:
Customer says the order is late.

GENERAL INFORMATION:
The current order and shipment status should be checked before giving a specific explanation or new delivery date.

SCENARIO 5:
Customer says the address is wrong.

GENERAL INFORMATION:
The customer should contact support as soon as possible. Whether the address can be changed depends on the order status.

SCENARIO 6:
Customer says the courier cannot find the address.

GENERAL INFORMATION:
The customer should provide additional directions, landmarks, and reachable contact information.

SCENARIO 7:
Customer says the order is marked delivered but is missing.

GENERAL INFORMATION:
The customer should contact support promptly so the delivery can be investigated.

SCENARIO 8:
Customer says one product is missing from a multi-product order.

GENERAL INFORMATION:
The customer should check whether the order has multiple shipments before reporting the product as lost.

SCENARIO 9:
Customer received a damaged product.

GENERAL INFORMATION:
The customer should contact support and provide relevant information about the product and damage.

SCENARIO 10:
Customer wants delivery to another location.

GENERAL INFORMATION:
The customer should request an address change as soon as possible. The ability to change the address depends on the order status.

==========
72. DELIVERY INFORMATION PRINCIPLES
==========

The following principles apply to Hulu Beje delivery information:

1. Delivery estimates are estimates unless a service explicitly provides a guarantee.
2. Standard delivery is generally 3–7 business days.
3. Express delivery is generally 1–3 business days.
4. Same-day delivery is limited to selected products and eligible locations.
5. Same-day delivery is subject to the cutoff time displayed during checkout.
6. Delivery availability varies by destination.
7. Delivery fees may vary.
8. Free delivery may be promotional.
9. Customers should provide accurate delivery addresses.

10. Customers should provide reachable phone numbers.
11. Landmarks can help with difficult-to-identify destinations.
12. Multiple products may arrive separately.
13. Different sellers may have different delivery arrangements.
14. Delivery can be delayed by operational circumstances.

18. Specific shipment information should be checked before making claims about an individual order.
19. Customers should not provide passwords or payment authentication credentials for delivery support.
20. Complex delivery disputes may require additional review.

==========

73. FINAL DELIVERY POLICY

==========

Hulu Beje provides delivery services according to product, seller, customer location, delivery method, and current operational conditions.

Standard delivery is generally estimated at 3–7 business days.

Express delivery is generally estimated at 1–3 business days.

Same-day delivery may be available for selected products and eligible locations and is subject to the cutoff time displayed during checkout.

Customers should provide accurate and complete delivery information, including a reachable phone number and useful location details.

Delivery may be affected by product availability, seller processing, courier operations, weather, road conditions, public holidays, address problems, customer availability, and

other operational circumstances.

Delivery fees may vary, and free delivery may be available through selected promotions or applicable conditions.

Orders containing multiple products may be delivered separately.

Products supplied by different sellers may have different delivery arrangements.

Customers should report delayed, missing, damaged, incorrect, or otherwise problematic deliveries through the appropriate support process.

Specific delivery status, shipment progress, and customer order information should always be confirmed using the information associated with the customer's actual order.
