HULU BEJE

ORDERS AND ORDER MANAGEMENT POLICY

DOCUMENT ID: HULU-BEJE-KB-005

DOCUMENT TITLE: Orders & Order Management

DOCUMENT TYPE: Business Knowledge

COMPANY: Hulu Beje

COUNTRY: Ethiopia

==========

1. DOCUMENT PURPOSE

==========

This document explains the general rules and procedures related to Hulu Beje customer orders.

It covers:

- Shopping cart and orders
- Creating an order
- Order confirmation
- Order numbers
- Order status
- Order processing
- Order cancellation
- Order modification
- Delivery address changes
- Contact information changes
- Product and quantity changes
- Order tracking
- Delayed orders
- Missing orders
- Partial deliveries

- Multiple-product orders
- Multiple-seller orders
- Wrong, damaged, missing, or incomplete orders
- Cancelled orders
- Order history
- Customer responsibilities
- Common order questions

The status and details of a specific customer order depend on that individual order and its current processing stage.

==========
2. ORDER OVERVIEW
==========

An order is a customer's confirmed purchase request for one or more products from Hulu Beje.

An order may contain:

- One product
- Multiple products
- Different quantities
- Different product variants
- Products from different sellers
- Different delivery arrangements

Each order is associated with information needed to process and deliver the purchase.

==========
3. SHOPPING CART VS ORDER
==========

A shopping cart contains products that a customer intends to purchase.

An order is created after the customer completes the applicable checkout and ordering process.

Adding a product to a cart does not necessarily mean that the product has been purchased.

A customer should complete the required checkout steps to place an order.

==========

4. CREATING AN ORDER

==========

To place an order, the customer generally:

1. Selects the desired product.
2. Selects the applicable quantity or variant.
3. Adds the product to the cart.
4. Reviews the cart.
5. Provides or confirms delivery information.
6. Selects an available payment method.
7. Reviews the order information.
8. Confirms the order.

The exact checkout sequence may vary depending on the order and available services.

==========

5. ORDER INFORMATION

==========

An order may contain information such as:

- Order number
- Customer information
- Products
- Quantities
- Product variants
- Prices
- Discounts
- Delivery charges
- Total amount
- Payment information
- Delivery address
- Contact information
- Order status
- Delivery information
- Seller information where applicable

==========

6. ORDER NUMBER

==========

An order number is a reference associated with a specific order.

Customers should keep their order number available when contacting customer support.

The order number can help identify the correct purchase.

==========

7. ORDER CONFIRMATION

==========

After an order is successfully placed, the customer may receive an order confirmation.

Order confirmation may include:

- Order number
- Products
- Quantities
- Total amount
- Delivery information
- Payment information
- Other relevant order details

Customers should review the confirmation and report any important problem as soon as possible.

==========

8. ORDER CONFIRMATION VS PAYMENT CONFIRMATION

==========

Payment confirmation and order confirmation are related but separate events.

A payment may be completed while an order is still being processed.

Similarly, an order may require additional processing after payment.

Customers should check the actual order status when asking about an order.

==========

9. ORDER STATUS

==========

An order may pass through different statuses.

Common statuses may include:

- Pending
- Confirmed
- Processing
- Packed
- Shipped
- Out for delivery
- Delivered
- Cancelled
- Returned
- Completed

The exact statuses shown may vary depending on the order process.

==========
10. PENDING ORDER
==========

A pending order has not yet reached the next final processing stage.

Possible reasons may include:

- Payment processing
- Order verification
- Inventory confirmation
- Seller confirmation
- Operational processing

Customers should review the current order status for the specific order.

==========

11. CONFIRMED ORDER

==========

A confirmed order has been accepted for further processing.

Confirmation does not necessarily mean that the product has already been shipped.

The order may still need to go through preparation and packaging.

==========

12. PROCESSING ORDER

==========

A processing order is being prepared.

Processing may include:

- Product confirmation
- Inventory preparation
- Seller preparation
- Order verification
- Packaging preparation

The processing period can vary depending on the order.

==========

13. PACKED ORDER

==========

A packed order has been prepared for shipment or delivery.

The order may then move to the shipping or delivery stage.

==========

14. SHIPPED ORDER

==========

A shipped order has been handed over for delivery or transportation.

The customer may receive tracking or delivery information where available.

==========

15. OUT FOR DELIVERY

==========

An order marked "Out for delivery" is in the delivery stage.

The delivery may be attempted at the customer's provided address.

Customers should remain reachable when delivery is expected.

==========

16. DELIVERED ORDER

==========

A delivered order has been recorded as delivered.

If a customer believes an order was marked delivered incorrectly, the customer should contact support promptly.

==========

17. CANCELLED ORDER

==========

A cancelled order is no longer proceeding through normal fulfillment.

Cancellation may happen because of:

- Customer request
- Payment problem
- Product availability problem
- Seller issue
- Operational issue
- Other applicable circumstances

If payment was already made, the applicable refund process may apply.

==========

18. RETURNED ORDER

==========

An order or product may enter a returned status after an approved return process.

Returned products may require inspection before a refund or replacement is completed.

==========

19. COMPLETED ORDER

==========

A completed order has finished the applicable ordering process.

A completed order may still have separate warranty, return, refund, or support matters where applicable.

==========

20. ORDER MODIFICATION

==========

Customers may sometimes request changes to an order before it reaches a stage where changes are no longer possible.

Possible changes may include:

- Product
- Quantity
- Variant
- Delivery address
- Contact information
- Delivery instructions

Changes depend on the current order status.

==========

21. CHANGING A PRODUCT

==========

A customer may request a product change before the order reaches a stage where modification is no longer possible.

The requested replacement product must be available and eligible for the order.

If the order cannot be modified, the customer may need to cancel the order and place a new order where cancellation is available.

==========

22. CHANGING QUANTITY

==========

Customers may request a quantity change before order processing reaches a stage where modification is no longer possible.

Quantity changes may affect:

- Product total
- Discounts
- Delivery charges
- Availability
- Final order amount

==========

23. CHANGING PRODUCT VARIANT

==========

A customer may request a change to a product variant such as:

- Size
- Color
- Model
- Configuration

The requested variant must be available.

If the order cannot be modified, the customer may need to cancel and place a new order where permitted.

==========

24. CHANGING THE DELIVERY ADDRESS

==========

Customers should provide an accurate delivery address when placing an order.

An address change may be possible before the order reaches a stage where the delivery information can no longer be changed.

Address changes may not be possible after shipment or during final delivery.

==========

25. CHANGING CONTACT INFORMATION

==========

Customers should provide an accurate phone number and other required contact information.

A customer may request a contact-information change before it becomes impossible to modify the order.

Customers should remain reachable during delivery.

==========

26. DELIVERY INSTRUCTIONS

==========

Customers may provide useful delivery instructions where supported.

Examples may include:

- Building information

- Apartment information
- Office information
- Nearby landmark
- Gate or compound instructions
- Safe delivery instructions

Delivery instructions should be clear and accurate.

==========

27. ORDER CANCELLATION

==========

Customers may request cancellation where cancellation is available.

Cancellation availability depends on the current order status.

Cancellation may become unavailable after the order has reached certain processing or delivery stages.

==========

28. CANCELLATION BEFORE PROCESSING

==========

An order may be easier to cancel before processing has advanced.

Customers requesting cancellation should provide the order number and clearly state the cancellation request.

==========

29. CANCELLATION AFTER PROCESSING

==========

Cancellation may not be possible after an order has been:

- Packed
- Shipped
- Handed to a delivery partner
- Put out for delivery
- Delivered

In these situations, the customer may need to follow the applicable return process.

==========

30. CANCELLATION AFTER PAYMENT

==========

If an order is cancelled after payment, the applicable refund process may apply.

Refund timing depends on:

- Payment method
- Cancellation status
- Payment provider
- Refund processing
- Applicable conditions

==========

31. CANCELLATION BY HULU BEJE

==========

Hulu Beje or a participating seller may cancel an order in certain circumstances.

Possible reasons may include:

- Product unavailable
- Payment problem
- Seller fulfillment problem
- Operational issue
- Incorrect or invalid order information
- Other applicable circumstances

If payment was already made, the applicable refund process may apply.

==========

32. PRODUCT UNAVAILABLE AFTER ORDER

==========

A product may become unavailable after an order is placed.

Possible outcomes may include:

- Order cancellation
- Replacement option
- Partial cancellation
- Refund
- Other applicable resolution

The applicable resolution depends on the specific order.

==========

33. ORDER PROCESSING DELAYS

==========

An order may take longer than expected because of:

- Product availability

- Seller processing
- Payment verification
- High order volume
- Delivery conditions
- Weather
- Road conditions
- Holidays
- Operational problems
- Other circumstances

Customers should review the current order status for the latest available information.

==========

34. ORDER DELIVERY TIME

==========

General delivery estimates may include:

- Standard delivery: 3–7 business days
- Express delivery: 1–3 business days
- Same-day delivery: available for selected products and eligible locations, subject to the applicable cutoff time shown during checkout

These are general delivery estimates and do not guarantee an exact delivery time for every order.

==========

35. BUSINESS DAYS

==========

Delivery estimates may be expressed in business days.

Business days may exclude applicable weekends and holidays.

The exact delivery period can depend on:

- Order date
- Processing time
- Delivery location
- Delivery method
- Seller
- Operational conditions

==========

36. ORDER TRACKING

==========

Where tracking is available, customers may use the provided tracking information to follow the delivery progress.

Tracking information may show stages such as:

- Shipment preparation
- Shipped
- In transit
- Out for delivery
- Delivered

==========

37. TRACKING NOT UPDATING

==========

Tracking information may not update immediately.

Possible reasons include:

- Delivery partner processing
- Delayed scanning
- Transportation
- Network or communication delays
- Weekend or holiday processing
- Other operational conditions

If tracking remains unchanged for an unusual period, the customer should contact support.

==========

38. WHERE IS MY ORDER?

==========

When a customer asks about the location of an order, the relevant order information should be reviewed.

The customer may need to provide:

- Order number
- Customer information required for identification
- Delivery information where necessary

The current order status should be used rather than assumptions.

==========

39. ORDER NOT FOUND

==========

If a customer cannot find an order, possible reasons may include:

- Incorrect account
- Missing order confirmation
- Delayed order processing
- Incorrect order number
- Order cancellation
- Payment processing issue

The customer should provide the available order or payment information for investigation.

==========

40. PAID BUT ORDER NOT FOUND

==========

If payment was completed but the order cannot be found, the customer should not immediately make another payment.

The payment and order information should be reviewed first.

Useful information may include:

- Payment reference
- Payment amount
- Payment date
- Payment method
- Order number if available

==========

41. MISSING ORDER CONFIRMATION

==========

If a customer does not receive an order confirmation, the customer should check the available order history and payment information.

If the order still cannot be identified, customer support should be contacted.

==========

42. ORDER HISTORY

==========

Customers may be able to review previous orders through their account or applicable customer records.

Order history may contain:

- Previous orders
- Order numbers
- Products
- Amounts
- Status
- Delivery information
- Return information

==========

43. MULTIPLE ORDERS

==========

A customer may have multiple orders.

Each order may have a separate:

- Order number
- Status
- Payment
- Delivery

- Seller
- Tracking information

Customers should identify the correct order when requesting support.

==========

44. MULTIPLE PRODUCTS IN ONE ORDER

==========

An order may contain multiple products.

Different products may sometimes have different:

- Availability
- Sellers
- Processing times
- Delivery arrangements

As a result, products within one order may not always arrive at the same time.

==========

45. SPLIT SHIPMENTS

==========

An order may be delivered in multiple shipments when applicable.

This may happen because products:

- Come from different sellers
- Are stored in different locations
- Have different processing times
- Require different delivery arrangements

Customers should check the delivery information for each shipment.

==========

46. MULTIPLE SELLER ORDERS

==========

Marketplace orders may include products supplied by different sellers.

Different sellers may have different:

- Product availability
- Processing times
- Shipping arrangements
- Return conditions
- Warranty conditions

The applicable seller information should be reviewed for the affected product.

==========

47. PARTIAL DELIVERY

==========

A customer may receive only part of an order.

Possible reasons include:

- Split shipment
- Different seller
- Product availability
- Different processing time
- Delivery scheduling

Customers should check whether the remaining products have separate delivery information.

==========

48. MISSING ITEM

==========

If an order is delivered but an expected product is missing, the customer should review the order details and delivery information.

If the missing product is not part of a separate shipment, the customer should contact support.

==========

49. WRONG PRODUCT

==========

If a customer receives a product different from the one ordered, the customer should contact support.

Useful information may include:

- Order number
- Product ordered
- Product received
- Delivery information
- Photos where appropriate

The applicable return, replacement, or correction process may apply.

==========

50. DAMAGED PRODUCT

==========

If a product arrives damaged, the customer should report the issue as soon as possible.

The customer should preserve the product and packaging where possible until the issue is reviewed.

Photos or other evidence may be requested where appropriate.

==========

51. INCOMPLETE ORDER

==========

An order may be considered incomplete if:

- Expected items are missing
- Accessories are missing
- Components are missing
- The delivered quantity differs from the ordered quantity

The customer should report the issue with the relevant order details.

==========

52. PRODUCT NOT AS DESCRIBED

==========

If a customer believes the received product significantly differs from the applicable product information, the customer should contact support.

The applicable return, replacement, refund, or seller process may apply.

==========

53. ORDER DELIVERED BUT NOT RECEIVED

==========

If an order is marked as delivered but the customer did not receive it, the customer should contact support promptly.

The delivery information may need to be reviewed.

The customer may also check whether:

- Another household member received it
- Building reception received it
- Office reception received it
- A designated recipient accepted it

==========

54. DELIVERY ATTEMPT

==========

A delivery may fail if the customer is unavailable.

Other possible reasons include:

- Incorrect address
- Incomplete address
- Unreachable phone number
- Courier unable to locate the destination
- Access restrictions
- Other delivery conditions

A new delivery attempt or other resolution may be available.

==========

55. ORDER DELAY

==========

An order may be delayed because of:

- Processing delays
- Seller delays
- Transportation problems
- Weather
- Road conditions
- Holidays
- High order volume
- Product availability
- Other operational circumstances

Customers should review current order information and contact support when the delay requires investigation.

==========

56. URGENT ORDERS

==========

Customers with urgent orders should review the available delivery options before placing the order.

Express or same-day delivery may be available only for eligible products and locations.

Delivery estimates do not guarantee an exact arrival time.

==========

57. ORDER ADDRESS ACCURACY

==========

Customers are responsible for providing accurate delivery information.

An order may be delayed or unsuccessful if the address is:

- Incorrect
- Incomplete
- Ambiguous
- Missing important location details

Customers should provide useful landmarks, building information, and contact information where applicable.

==========

58. ORDER ADDRESS VS ACCOUNT ADDRESS

==========

A customer account may contain saved addresses.

The address associated with an individual order is the address that should be used for that order.

Changing a saved account address does not necessarily change the delivery address of an existing order.

==========

59. ORDER CONTACT INFORMATION

==========

The phone number associated with an order may be used for delivery communication.

Customers should ensure that the provided number is accurate and reachable.

An unreachable customer may cause delivery delays.

==========

60. ORDER DELIVERY INSTRUCTIONS

==========

Customers should provide clear delivery instructions where available.

Useful information can include:

- Apartment number
- Floor
- Building name
- Office name
- Gate information
- Nearby landmark
- Access instructions

Instructions should not request unsafe or inappropriate delivery actions.

==========

61. ORDER PAYMENT PROBLEMS

==========

Payment problems may affect order processing.

Examples include:

- Failed payment

- Pending payment
- Duplicate payment
- Payment verification problem
- Payment provider issue

Customers should review the payment status before submitting another payment.

==========

62. ORDER MODIFICATION AFTER PAYMENT

==========

An order may sometimes be modified after payment if the order has not reached a stage where changes are no longer possible.

A modification may affect:

- Total price
- Delivery fee
- Discount
- Payment amount
- Availability

If modification is not possible, cancellation and a new order may be required where applicable.

==========

63. ORDER ACTION CONFIRMATION

==========

Important order actions should be confirmed before completion.

Examples include:

- Cancellation
- Address change
- Product change
- Quantity change
- Variant change
- Other significant modifications

Customers should review the result after an action is completed.

==========

64. FAILED ORDER ACTION

==========

If a requested order action fails, the customer should not assume that the action was completed.

For example:

- A cancellation request may fail
- An address change may fail
- A product modification may fail
- A quantity change may fail

The actual order status should be checked.

==========

65. ORDER CANCELLATION CONFIRMATION

==========

A cancellation request and a completed cancellation are not necessarily the same thing.

Customers should verify that the order status actually changed to cancelled.

If payment was already completed, the refund status should also be reviewed where applicable.

==========

66. ORDER MODIFICATION CONFIRMATION

==========

A requested change should not be considered completed until the updated order information confirms the change.

Customers should review:

- Product
- Quantity
- Variant
- Address
- Contact information
- Total amount

after a successful modification.

==========

67. ORDER INFORMATION PRIVACY

==========

Customer order information is private.

Order details may include:

- Products

- Prices
- Address
- Phone number
- Payment information
- Delivery information

Customers should protect their order information and account access.

==========

68. CUSTOMER RESPONSIBILITIES

==========

Customers should:

- Review products before ordering
- Confirm quantities
- Confirm variants
- Provide accurate delivery information
- Provide a reachable contact number
- Review the total amount
- Confirm the payment method
- Keep order numbers
- Monitor order information
- Report problems promptly
- Be available for delivery where required

==========

69. CUSTOMER SUPPORT FOR ORDERS

==========

Customer support may assist with:

- Order status questions

- Missing orders
- Delivery delays
- Order cancellation
- Order modification
- Wrong products
- Missing items
- Damaged products
- Payment-related order problems
- Delivery address concerns
- Tracking problems
- Other order-related issues

Customers should provide the relevant order number when available.

==========

70. COMMON ORDER FAQ

==========

QUESTION:
What is an order?

ANSWER:
An order is a confirmed purchase request for one or more products.

QUESTION:
Is a product in my cart already purchased?

ANSWER:
No. A cart contains products selected for possible purchase. The
customer must complete the ordering process.

QUESTION:
Where can I find my order number?

ANSWER:
The order number may be shown in the order confirmation and order information.

QUESTION:
What does "Pending" mean?

ANSWER:
It means the order has not yet reached the next applicable processing stage.

QUESTION:
What does "Confirmed" mean?

ANSWER:
It means the order has been accepted for further processing.

QUESTION:
What does "Processing" mean?

ANSWER:
It means the order is being prepared.

QUESTION:
What does "Shipped" mean?

ANSWER:
It means the order has entered the shipping or transportation stage.

QUESTION:
What does "Out for delivery" mean?

ANSWER:
It means the order is in the delivery stage and may be delivered to the provided address.

QUESTION:
Can I cancel my order?

ANSWER:
Cancellation may be possible depending on the current order status.

QUESTION:
Can I change my delivery address?

ANSWER:
An address change may be possible before the order reaches a stage where the delivery information can no longer be changed.

QUESTION:
Can I change the product after ordering?

ANSWER:
A product change may be possible before processing reaches a stage where modification is no longer available.

QUESTION:
Can I change the quantity?

ANSWER:
A quantity change may be possible before the order reaches a non-modifiable stage.

QUESTION:
Can I change the product color or size?

ANSWER:
A variant change may be possible if the requested variant is available and the order can still be modified.

QUESTION:
Why has my order not shipped yet?

ANSWER:
The order may still be processing because of product availability, seller preparation, payment processing, or other operational factors.

QUESTION:
Why is my tracking information not changing?

ANSWER:
Tracking information may take time to update because of delivery processing, transportation, scanning delays, weekends, holidays, or other operational conditions.

QUESTION:
Why did only part of my order arrive?

ANSWER:
The order may have been split into multiple shipments because of different sellers, locations, products, or processing times.

QUESTION:
What should I do if an item is missing?

ANSWER:
Check whether it is part of another shipment. If it is not, contact customer support.

QUESTION:
What should I do if I received the wrong product?

ANSWER:
Contact support with the order details and information about the product received.

QUESTION:
What should I do if my product arrived damaged?

ANSWER:
Report the damage promptly and preserve the product and packaging where possible.

QUESTION:
What if my order says delivered but I did not receive it?

ANSWER:
Check whether another authorized person received it and contact support promptly if it cannot be located.

QUESTION:
What if I paid but cannot find my order?

ANSWER:
Do not immediately pay again. Keep the payment information and contact support so the transaction can be reviewed.

QUESTION:
Can an order be cancelled by Hulu Beje?

ANSWER:

An order may be cancelled in certain circumstances, including product availability, payment problems, seller issues, or operational conditions.

QUESTION:
Will I receive a refund if my paid order is cancelled?

ANSWER:
An eligible payment may be subject to the applicable refund process.

QUESTION:
Can different products in one order arrive separately?

ANSWER:
Yes. Different products may have different sellers, processing times, or delivery arrangements.

==========
71. COMMON ORDER SCENARIOS
==========

SCENARIO 1:
Customer wants to cancel an order.

GENERAL INFORMATION:
Check whether the order is still at a stage where cancellation is available.

SCENARIO 2:
Customer wants to change the delivery address.

GENERAL INFORMATION:
Check whether the order has already reached a stage where address

changes are no longer possible.

SCENARIO 3:
Customer wants to change product quantity.

GENERAL INFORMATION:
Check the current order status and whether modification is still available.

SCENARIO 4:
Customer says the order is delayed.

GENERAL INFORMATION:
Review the current order status, delivery information, and applicable delivery estimate.

SCENARIO 5:
Customer says tracking has not updated.

GENERAL INFORMATION:
Tracking updates may be delayed. If the delay remains unresolved, support should review the order.

SCENARIO 6:
Customer received only part of the order.

GENERAL INFORMATION:
Check whether the remaining products have separate shipments or delivery information.

SCENARIO 7:
Customer received the wrong product.

GENERAL INFORMATION:
The order and delivered product should be compared and the applicable resolution should be provided.

SCENARIO 8:
Customer received a damaged product.

GENERAL INFORMATION:
The customer should report the damage promptly and preserve the product and packaging where possible.

SCENARIO 9:
Customer says the order was delivered but they did not receive it.

GENERAL INFORMATION:
The delivery information should be reviewed and the customer should contact support promptly.

SCENARIO 10:
Customer paid but cannot find the order.

GENERAL INFORMATION:
The payment transaction and order information should be reviewed before another payment is attempted.

==========
72. ORDER MANAGEMENT PRINCIPLES
==========

The following principles apply to Hulu Beje orders:

1. A cart is not the same as a completed order.
2. An order is associated with a specific order number.

3. Customers should retain their order numbers.
4. Payment confirmation and order confirmation are separate events.
5. Order status represents the current stage of the order.
6. Cancellation depends on the current order status.
7. Modification depends on the current order status.
8. Address changes may become unavailable after shipment or later delivery stages.
9. Product and quantity changes may affect the final amount.
10. Different products may have different processing times.
11. Multiple-seller orders may have different delivery arrangements.
12. One order may be delivered in multiple shipments.
13. Tracking information may not update immediately.
14. Delivery estimates are not guaranteed exact arrival times.
15. Customers should provide accurate delivery information.
16. Customers should provide a reachable contact number.
17. Payment problems may affect order processing.
18. A paid transaction does not automatically mean the order has been delivered.
19. A cancellation request is not the same as a completed cancellation.
20. A modification request is not the same as a completed modification.
21. Customers should verify important order changes.
22. Wrong, damaged, missing, or incomplete products should be reported promptly.
23. Order information is private.
24. Current information for a specific order should be used when answering order-status questions.
25. Complex, disputed, or unresolved order issues may require customer support review.

==========

73. FINAL ORDER MANAGEMENT POLICY

==========

Hulu Beje orders move through different stages from checkout to delivery.

Customers should review the products, quantities, variants, delivery information, payment method, and total amount before confirming an order.

Once an order is placed, its status may change through stages such as pending, confirmed, processing, packed, shipped, out for delivery, and delivered.

Cancellation and modification depend on the current order stage. Changes may become unavailable after processing, shipment, or delivery has advanced.

Orders containing multiple products or products from different sellers may be split into multiple shipments and may arrive at different times.

Customers should provide accurate delivery and contact information and keep their order numbers and transaction references.

Payment confirmation, order confirmation, shipment, and delivery are separate stages and should not be treated as the same event.

If an order is delayed, missing, incomplete, damaged, incorrect, or otherwise disputed, the customer should contact Hulu Beje support with the relevant order information.

The current information associated with the specific order should be used when resolving customer order questions.
