HULU BEJE — ETHIOPIAN DELIVERY LOCATIONS AND ADDRESS HANDLING POLICY

Document ID: 10

Document Type: Delivery Location and Address Management Policy

Company: Hulu Beje

Scope: Ethiopian Delivery Locations, Customer Addresses, Delivery Instructions, Location Eligibility, and Address-Related Support

==========

1. PURPOSE OF THIS POLICY

==========

This document defines how Hulu Beje handles customer delivery locations and addresses within Ethiopia.

The purpose of this policy is to help customers:

- Provide accurate delivery information.

- Understand the information needed for successful delivery.

- Handle Ethiopian addressing variations.

- Understand how delivery eligibility may vary by location.

- Provide useful landmarks and directions.

- Handle address changes.

- Resolve incomplete or incorrect addresses.

- Handle failed delivery caused by address or customer availability problems.

- Understand delivery timing and location-related conditions.

- Protect customer address and contact information.

Delivery availability, delivery fees, delivery methods, and delivery times may vary depending on the specific product, customer location, seller, operational conditions, and applicable delivery arrangements.

==========

2. DELIVERY LOCATION OVERVIEW

==========

Hulu Beje provides delivery services to eligible locations in Ethiopia, subject to applicable delivery availability.

Delivery availability may depend on:

- Customer location
- Product
- Seller
- Delivery method
- Product size or handling requirements
- Road accessibility
- Operational conditions

- Delivery partner availability

- Weather or other conditions

- Applicable location restrictions

Customers should confirm delivery availability during the ordering process when required.

A location should not be assumed to be eligible for every product or every delivery option.

==========

3. ETHIOPIAN ADDRESSING CONTEXT

==========

Addresses in Ethiopia may be described using different combinations of:

- Region
- City
- Sub-city
- Woreda
- Kebele
- Neighborhood
- Street
- House number
- Building name
- Apartment number
- Office name
- School name
- Hospital name
- Hotel name
- Compound name

- Landmark

- Telephone number

- Additional directions

Not every location has a conventional street name or house number.

For this reason, customers may need to provide additional location information such as:

- Nearby landmark

- Building name

- Compound name

- Nearby road

- Cross street

- Neighborhood

- Woreda

- Kebele

- Detailed directions

==========

4. BASIC DELIVERY ADDRESS INFORMATION

==========

Customers should provide as much accurate delivery information as reasonably available.

A useful delivery address may include:

- Customer name

- Phone number

- Region or city

- Sub-city, where applicable

- Woreda, where applicable

- Kebele, where applicable

- Neighborhood

- Street or road

- House or building number, where available

- Apartment or unit number, where applicable

- Building or compound name

- Nearby landmark

- Additional delivery directions

The exact information required may depend on the location.

==========

5. PHONE NUMBER

==========

A reachable phone number is important for delivery.

The delivery contact number may be used when:

- The courier needs directions.
- The address is difficult to locate.
- The customer is not immediately available.
- The courier needs to confirm delivery details.
- A delivery attempt requires clarification.

Customers should provide a valid and reachable phone number where required.

Customers should update incorrect contact information when possible.

==========

6. LANDMARKS

==========

Landmarks can be especially useful where a conventional street address is difficult to identify.

Examples of useful landmarks include:

- Well-known buildings
- Schools
- Hospitals
- Hotels

- Shopping centers

- Religious institutions

- Government offices

- Major roads

- Recognizable businesses

- Public transportation locations

- Known intersections

- Other clearly identifiable locations

A landmark should be accompanied by additional address information whenever possible.

Example:

Less useful:

"Near the hospital."

More useful:

"Addis Ababa, [area], near [hospital], turn at the main road and continue to the specified building or compound."

==========

7. DETAILED DIRECTIONS

==========

Customers may provide additional directions when the address is difficult to locate.

Useful directions may include:

- Which road to use.

- Which intersection to turn at.

- Nearby landmark.

- Building color or identifying feature, where appropriate.

- Compound entrance.

- Floor number.

- Apartment number.

- Office name.

- Gate or entrance information.

Directions should be accurate and easy to understand.

Customers should avoid providing unnecessary private information that is unrelated to delivery.

==========

8. ADDIS ABABA DELIVERY ADDRESSES

==========

Customers in Addis Ababa may provide address information using combinations of:

- Sub-city
- Woreda
- Kebele
- Neighborhood
- Street
- Building
- House number
- Apartment
- Compound
- Landmark
- Phone number

- Additional directions

Because address formats may vary, customers should provide multiple identifying details when a conventional street address is unavailable.

A sub-city or neighborhood alone may not be sufficient to identify a specific delivery destination.

==========

9. SUB-CITIES, WOREDAS AND KEBELES

==========

Where applicable, customers should provide the relevant administrative location information.

This may include:

- Sub-city

- Woreda

- Kebele

These details can help distinguish between locations with similar names.

Customers should use the current or commonly recognized information associated with their delivery location.

If the customer is uncertain about a specific administrative designation, they may provide other useful location details such as:

- Neighborhood

- Landmark

- Street

- Building

- Phone number

- Directions

==========

10. NEIGHBORHOODS AND STREETS

==========

Neighborhood and street information can help identify the delivery area.

Customers should provide:

- Neighborhood name
- Street or road name, where available
- Nearby intersection
- Building or house number, where available

- Landmark

- Additional directions

Different people may use different spellings or names for the same area.

If there is uncertainty, additional identifying information should be provided rather than relying on the name alone.

==========

11. APARTMENTS AND MULTI-UNIT BUILDINGS

==========

Customers living in apartments or multi-unit buildings should provide:

- Building name or number

- Apartment or unit number

- Floor number, where relevant

- Compound name, where relevant

- Entrance or gate information

- Phone number

- Nearby landmark

- Additional directions if necessary

A building address without an apartment or unit number may make delivery more difficult.

==========

12. OFFICES AND BUSINESS ADDRESSES

==========

For deliveries to offices or businesses, customers should provide:

- Business or organization name
- Building name
- Floor
- Office number
- Reception or entrance information
- Street or area
- Landmark
- Contact person, where appropriate
- Reachable phone number

Business deliveries may be affected by:

- Business operating hours

- Building access restrictions

- Reception procedures

- Security procedures

- Customer availability

==========

13. SCHOOL ADDRESSES

==========

For deliveries to schools, customers should provide:

- School name

- Location

- Campus or branch, if applicable

- Nearby landmark

- Gate or entrance information

- Contact number where appropriate

- Recipient name

- Additional directions

Delivery access may depend on the school's operating hours and access procedures.

==========

14. HOSPITAL ADDRESSES

==========

For deliveries to hospitals or healthcare facilities, customers should provide:

- Hospital or facility name

- Branch or location, where applicable

- Building or department, where appropriate

- Entrance or gate

- Recipient name

- Reachable phone number

- Additional directions

Hospital deliveries may have access restrictions.

Customers should not provide unnecessary sensitive medical information merely to identify a delivery location.

==========

15. HOTEL ADDRESSES

==========

For deliveries to hotels, customers should provide:

- Hotel name
- Location
- Guest name
- Room information when appropriate
- Reception or delivery instructions
- Reachable phone number

The hotel may have its own procedures for accepting deliveries.

Customers should follow the hotel's applicable delivery and visitor procedures.

==========

16. RESIDENTIAL COMPOUNDS AND GATED LOCATIONS

==========

For gated residential areas or compounds, customers should provide:

- Compound name
- Gate or entrance
- House or building number
- Unit number where applicable
- Landmark
- Phone number
- Special access instructions where appropriate

Customers should ensure that the delivery person can reasonably identify the correct entrance.

Customers should not provide unnecessary security-sensitive information.

==========

17. RURAL AND REMOTE LOCATIONS

==========

Delivery availability may vary for rural and remote locations.

Factors may include:

- Distance

- Road accessibility

- Delivery service availability

- Product type

- Seller arrangements

- Weather

- Operational conditions

- Delivery partner availability

Customers should confirm whether their specific location and selected product are eligible for delivery.

No specific rural or remote area should be assumed to have delivery availability without confirmation.

==========

18. LOCATION ELIGIBILITY

==========

A customer's location may be eligible for one delivery option but not another.

For example:

- Standard delivery may be available while same-day delivery is not.
- A particular product may have different delivery availability from another product.
- Express delivery may not be available in every location.
- Seller fulfillment arrangements may affect delivery availability.

Customers should rely on the delivery options presented for their specific order when available.

==========

19. STANDARD DELIVERY

==========

Standard delivery generally takes:

3–7 business days.

Actual delivery time may vary depending on:

- Destination
- Product
- Seller
- Order processing
- Delivery conditions
- Weekends
- Public holidays

- Weather

- Road conditions

- Other operational circumstances

The standard delivery timeframe is an estimate and should not automatically be treated as a guaranteed delivery date.

==========

20. EXPRESS DELIVERY

==========

Express delivery generally takes:

1–3 business days.

Express delivery may not be available for every:

- Product

- Location

- Seller

- Order

Availability and applicable charges should be confirmed during the ordering process.

==========

21. SAME-DAY DELIVERY

==========

Same-day delivery may be available for selected products and eligible locations.

Availability may depend on:

- Product eligibility
- Delivery location
- Order time
- Applicable cutoff time
- Operational capacity
- Seller arrangements

Customers should check the applicable same-day option and cutoff information during checkout.

Same-day delivery should not be assumed to be available for every order.

==========

22. DELIVERY FEES

==========

Delivery fees may vary depending on:

- Delivery location
- Delivery method
- Product
- Order
- Seller
- Promotion
- Other applicable conditions

The applicable delivery fee should be shown during the ordering or checkout process where applicable.

Free delivery may be available as part of a promotion or specific offer.

Customers should not assume that delivery is always free.

==========

23. ADDRESS ACCURACY

==========

Customers are responsible for providing accurate delivery information.

An incorrect or incomplete address may result in:

- Delivery delay

- Failed delivery

- Additional coordination

- Rescheduling

- Return of the shipment

- Additional delivery complications

Customers should review the delivery address before completing an order.

==========

24. ADDRESS NORMALIZATION AND SPELLING VARIATIONS

==========

Ethiopian place names may sometimes be written using different spellings or transliterations.

For example, a location may appear with variations in:

- English spelling
- Local-language spelling
- Abbreviations
- Transliteration
- Common neighborhood names
- Formal administrative names
- Informal local names

If a location name is ambiguous, additional information should be provided.

Useful additional information includes:

- Landmark

- Street

- Woreda

- Kebele

- Building

- Phone number

- Directions

==========

25. MAPS AND LOCATION INFORMATION

==========

Customers may provide location information using available maps or location references when appropriate.

A map location can be useful when:

- The address is difficult to describe.

- The location does not have a clear street address.

- Multiple places share a similar name.

- The customer wants to provide additional location guidance.

Map information should supplement, rather than unnecessarily replace, useful written address details.

==========

26. DELIVERY INSTRUCTIONS

==========

Customers may provide reasonable delivery instructions such as:

- Preferred entrance

- Building reception

- Gate information

- Office reception

- Apartment floor

- Safe and appropriate drop-off instructions where available

- Contact instructions

Delivery instructions should not require unsafe actions.

Customers should not request delivery personnel to enter restricted or dangerous areas.

==========

27. ADDRESS PRIVACY

==========

Delivery addresses are private customer information.

Customers should not publicly share unnecessary details about their home, workplace, or other private location.

Support should protect customer address information and should not disclose it to unrelated customers.

Only information necessary for the delivery or support case should be used.

==========

28. ADDRESS CHANGES

==========

Customers may sometimes need to change their delivery address after placing an order.

Whether an address can be changed depends on:

- Order status
- Fulfillment stage
- Shipment status
- Delivery stage
- Seller arrangements
- Operational conditions

Customers should request an address change as soon as possible.

An address change should not be considered completed until it is confirmed.

==========

29. ADDRESS CHANGE AFTER SHIPMENT

==========

Changing an address after an order has been shipped may be more difficult or unavailable.

Once a shipment is already in the delivery process, the applicable delivery arrangements may limit the available options.

Customers should contact support as soon as possible if an address change is required.

==========

30. INCORRECT OR INCOMPLETE ADDRESS

==========

If an address is incorrect or incomplete, customers should provide the corrected information as soon as possible.

Examples of missing information include:

- Missing house number
- Missing building number
- Missing apartment number
- Incorrect phone number
- Incorrect neighborhood
- Incorrect street
- Missing landmark
- Missing directions

Support should not assume the correct address when the customer's information is unclear.

==========

31. COURIER CANNOT FIND THE CUSTOMER

==========

A courier may have difficulty locating a customer when:

- The address is incomplete.
- The location name is ambiguous.
- The phone number is unreachable.
- The landmark is insufficient.
- The customer provided incorrect directions.
- The building is difficult to access.
- The customer is unavailable.

Customers should provide additional accurate information and remain reachable when delivery coordination requires contact.

==========

32. CUSTOMER UNAVAILABLE DURING DELIVERY

==========

Customers should make reasonable arrangements to receive their orders.

If a customer is unavailable:

- A delivery attempt may be unsuccessful.

- The order may require rescheduling.

- Additional coordination may be necessary.

- Delivery timing may change.

The exact handling depends on the applicable delivery arrangement.

==========

33. FAILED DELIVERY

==========

A delivery may fail because of:

- Incorrect address

- Incomplete address

- Unreachable customer

- Customer unavailable

- Inaccessible location

- Road conditions

- Operational issues

- Weather

- Delivery restrictions

- Other circumstances

Support should determine the applicable next step based on the specific order and circumstances.

==========

34. RESCHEDULING DELIVERY

==========

A failed or delayed delivery may sometimes be rescheduled.

Rescheduling depends on:

- Order status
- Delivery stage
- Delivery partner arrangements
- Customer availability
- Location
- Operational conditions

Customers should follow the instructions provided for the specific order.

==========

35. DELIVERY TIME WINDOWS

==========

Delivery timing may depend on:

- Delivery method
- Location
- Delivery partner
- Order volume
- Customer availability
- Road conditions
- Operational circumstances

A general delivery estimate should not automatically be interpreted as an exact appointment time.

If a specific delivery window is confirmed for an order, that confirmed information should be used instead.

==========

36. WEEKENDS AND PUBLIC HOLIDAYS

==========

Business-day delivery estimates generally refer to business days.

Weekends and public holidays may not count as business days.

Delivery operations may also vary during:

- Public holidays
- Major national events
- Weather disruptions

- Operational disruptions

- High-demand periods

Customers should consider these factors when interpreting delivery estimates.

==========

37. WEATHER AND ROAD CONDITIONS

==========

Weather and road conditions may affect delivery.

Potential effects include:

- Delays

- Route changes

- Temporary access problems

- Rescheduling

- Longer delivery times

Customers should not be promised an exact delivery time when external conditions are affecting delivery operations.

==========

38. ROAD ACCESSIBILITY

==========

Some locations may be difficult to access because of:

- Poor road conditions

- Construction

- Temporary road closures

- Restricted access

- Narrow roads

- Security or building access restrictions

- Weather conditions

- Other local conditions

Customers should provide practical delivery directions where possible.

==========

39. PICKUP LOCATIONS

==========

Where Hulu Beje offers a pickup option for a particular order, the applicable pickup location and conditions should be communicated to the customer.

Pickup availability may vary by:

- Product

- Order

- Location

- Seller

- Operational conditions

Customers should use only the pickup information confirmed for their specific order.

==========

40. P.O. BOX ADDRESSES

==========

A P.O. Box may not be sufficient for physical delivery when the delivery requires a specific physical destination.

Customers should provide a physical delivery address when required.

If the customer is unsure whether a P.O. Box can be used for a particular order, they should confirm the available delivery options before completing the order.

==========

41. LANDMARK-ONLY ADDRESSES

==========

A landmark alone may not always be sufficient to locate a customer.

Instead of:

"Near Bole Medhanealem."

Customers should provide additional information such as:

- Area
- Street
- Building
- Compound
- Nearby intersection
- Phone number
- Detailed directions

The more clearly the location can be identified, the easier delivery coordination may be.

==========

42. MULTIPLE OR SAVED ADDRESSES

==========

Customers may have multiple delivery addresses, such as:

- Home
- Office
- Family residence
- Other authorized delivery location

Customers should verify the selected delivery address before completing each order.

The address saved on a customer account should not automatically be assumed to be the intended delivery address for every order.

==========

43. ORDER ADDRESS VS ACCOUNT ADDRESS

==========

A customer's account may contain one or more saved addresses.

The delivery address associated with a specific order determines where that order is intended to be delivered.

Changing a saved account address does not necessarily change the address of an existing order.

Customers should verify the address attached to the specific order when requesting a delivery change.

==========

44. LOCATION VERIFICATION

==========

Location verification may be necessary when:

- The address is unclear.
- Multiple locations match the same description.
- A delivery attempt has failed.
- The customer reports that the courier cannot find the location.
- The order has special delivery requirements.
- The location information appears inconsistent.

Customers may be asked to provide additional non-sensitive location details to clarify the destination.

==========

45. ADDRESS INFORMATION THAT SHOULD NOT BE REQUESTED UNNECESSARILY

==========

Support should not request unnecessary personal information.

For delivery purposes, support generally does not need:

- Account password
- OTP
- Authentication code
- CVV
- Full payment card number

- Unrelated personal information

Only information necessary to resolve the delivery or address issue should be requested.

==========

46. DELIVERY TO ANOTHER PERSON

==========

Customers may sometimes arrange delivery to another person or location where supported.

The customer should provide:

- Recipient name

- Delivery location

- Reachable contact number where appropriate

- Useful delivery instructions

The customer should ensure that the recipient is aware of the expected delivery when necessary.

==========

47. DELIVERY TO WORKPLACES

==========

For workplace deliveries, customers should consider:

- Business operating hours

- Reception availability

- Security procedures

- Building access

- Office number

- Floor number

- Recipient availability

Customers should provide enough information for the delivery to reach the intended recipient without requiring unnecessary access to restricted areas.

==========

48. DELIVERY TO PUBLIC OR SHARED LOCATIONS

==========

Customers should provide a clearly identifiable meeting or delivery location where supported.

A public location should be:

- Safe

- Accessible

- Clearly identifiable

- Appropriate for receiving the order

Customers should not request delivery to unsafe or restricted areas.

==========

49. DELIVERY LOCATION AND PRODUCT RESTRICTIONS

==========

Some products may have special delivery conditions.

Examples may include:

- Large products

- Fragile products

- Perishable products

- Products requiring special handling

- Products with seller-specific delivery arrangements

The availability of a delivery option should be confirmed for the specific product and location.

==========

50. LOCATION-BASED DELIVERY FEES

==========

Delivery fees may vary based on location.

A customer should not assume that the fee for one location applies to another location.

The applicable fee should be confirmed during checkout or through the relevant order information.

==========

51. LOCATION-BASED PROMOTIONS

==========

Some promotions may have location restrictions.

For example, a free-delivery promotion may apply only to:

- Certain locations

- Certain products

- Certain order values

- Certain time periods

- Certain sellers

- Other specified conditions

Customers should review the applicable promotion terms.

==========

52. ADDRESS-RELATED CUSTOMER SUPPORT

==========

Customers may contact support about:

- Incorrect address
- Missing address information
- Address change
- Delivery location eligibility
- Courier unable to find location
- Failed delivery
- Delivery fee
- Delivery availability
- Pickup location
- Delivery instructions
- Customer unavailable
- Delivery delay

Support should identify whether the question is general or specific to an existing order.

==========

53. ADDRESS CHANGES AND CUSTOMER RESPONSIBILITY

==========

Customers are responsible for reviewing their delivery information before completing an order.

If an incorrect address is discovered after ordering, the customer should contact support promptly.

The ability to correct the address depends on the order's current stage.

Customers should not assume that a requested address change has been completed until confirmation is provided.

==========

54. DELIVERY ADDRESS SCENARIOS

==========

SCENARIO 1 — CUSTOMER HAS NO HOUSE NUMBER

Customer:

"My area doesn't use house numbers."

Response:

"Please provide the most detailed location information available, such as neighborhood, street or road, landmark, building or compound name, and a reachable phone number."

SCENARIO 2 — CUSTOMER ONLY PROVIDES A LANDMARK

Customer:

"Deliver it near the hospital."

Response:

"Please provide additional information such as the hospital name, area, nearby street or landmark, and other directions that can help identify the exact delivery location."

SCENARIO 3 — CUSTOMER ENTERED THE WRONG ADDRESS

Customer:

"I entered the wrong address."

Response:

"Please request the address change as soon as possible. Whether it can be changed depends on the current order and delivery status. The change should not be considered completed until it is confirmed."

SCENARIO 4 — CUSTOMER IS NOT AVAILABLE

Customer:

"The courier came when I was not home."

Response:

"The delivery may require rescheduling or additional coordination depending on the order and delivery arrangement. Please follow the available delivery instructions or contact support."

SCENARIO 5 — COURIER CANNOT FIND THE LOCATION

Customer:

"The courier says they cannot find me."

Response:

"Please provide additional location details such as a nearby landmark, street or road, building or compound name, entrance, and a reachable phone number."

SCENARIO 6 — CUSTOMER ASKS WHETHER THEIR AREA IS COVERED

Customer:

"Do you deliver to my area?"

Response:

"Delivery availability depends on the specific location, product, seller, and delivery option. Please check the delivery availability for the specific order or product."

SCENARIO 7 — CUSTOMER WANTS SAME-DAY DELIVERY

Customer:

"Can you deliver today?"

Response:

"Same-day delivery may be available for selected products and eligible locations, subject to the applicable cutoff time and delivery conditions. Availability should be confirmed for the specific order."

SCENARIO 8 — CUSTOMER WANTS TO CHANGE THE DELIVERY ADDRESS AFTER SHIPPING

Customer:

"My order has already shipped. Can I change the address?"

Response:

"Address changes may be limited after shipment. The current order and delivery status should be checked before confirming whether the change is possible."

SCENARIO 9 — CUSTOMER PROVIDES AN OFFICE ADDRESS

Customer:

"Deliver it to my office."

Response:

"Please provide the business or building name, office or floor information where applicable, area or street, a reachable phone number, and any useful reception or entrance instructions."

SCENARIO 10 — CUSTOMER PROVIDES A HOSPITAL ADDRESS

Customer:

"Send it to the hospital."

Response:

"Please provide the hospital name and location, along with the recipient information and appropriate entrance or department details where needed."

==========

55. FREQUENTLY ASKED QUESTIONS

==========

Q1. What information should I provide for delivery?

A:

Provide your name, reachable phone number, city or area, and as much location detail as available, such as sub-city, woreda, kebele, neighborhood, street, building, house number, landmark, and directions.

Q2. What if my area does not have a house number?

A:

Provide other identifying information such as neighborhood, road, landmark, building or compound name, directions, and a reachable phone number.

Q3. Do you deliver everywhere in Ethiopia?

A:

Delivery availability depends on the specific location, product, seller, and delivery option. A location should not be assumed to be eligible for every order.

Q4. Do you deliver in Addis Ababa?

A:

Delivery may be available in eligible locations within Addis Ababa. Specific availability depends on the order, product, seller, and delivery option.

Q5. What is standard delivery time?

A:

Standard delivery generally takes 3–7 business days.

Q6. What is express delivery time?

A:

Express delivery generally takes 1–3 business days where express delivery is available.

Q7. Is same-day delivery available?

A:

Same-day delivery may be available for selected products and eligible locations, subject to the applicable cutoff time and delivery conditions.

Q8. Is delivery free?

A:

Delivery fees vary depending on the order, location, product, seller, delivery method, and applicable promotions. The applicable fee should be shown during checkout where applicable.

Q9. Can I change my delivery address after ordering?

A:

An address change may be possible depending on the order status and delivery stage. Contact support as soon as possible and wait for confirmation before assuming the change was completed.

Q10. Can I change the address after shipment?

A:

It may be more difficult or unavailable after shipment. The specific order and delivery status should be checked.

Q11. What if the courier cannot find my address?

A:

Provide additional details such as a landmark, street or road, building or compound name, entrance, directions, and a reachable phone number.

Q12. What if I am not available when the courier arrives?

A:

The delivery may require rescheduling or additional coordination depending on the delivery arrangement.

Q13. Can I use a landmark instead of a full address?

A:

A landmark can help, but a landmark alone may not be enough. Provide additional location details whenever possible.

Q14. Can I use a P.O. Box?

A:

A P.O. Box may not be sufficient for physical delivery. A physical delivery address may be required depending on the delivery arrangement.

Q15. Can I send an order to my workplace?

A:

Workplace delivery may be possible where supported. Provide the business name, building, office or floor information, location, recipient, phone number, and relevant delivery instructions.

Q16. Can I send an order to a hotel?

A:

Hotel delivery may be possible depending on the delivery arrangement. Provide the hotel name, location, recipient or guest name, and appropriate reception information.

Q17. Can I send an order to a hospital?

A:

Delivery may be possible depending on the facility and delivery arrangement. Provide the hospital name, location, recipient information, and appropriate delivery instructions.

Q18. Why do I need a phone number?

A:

A reachable phone number may be needed for delivery coordination, directions, availability, or other delivery-related communication.

Q19. Does changing my saved account address change an existing order?

A:

Not necessarily. The delivery address associated with the specific order determines its intended destination unless an approved change is confirmed.

Q20. Can delivery be delayed because of weather?

A:

Yes. Weather and road conditions can affect delivery timing.

Q21. Do weekends count in delivery estimates?

A:

Standard business-day estimates generally do not count weekends, and public holidays may also affect delivery timing.

Q22. Can delivery fees vary by location?

A:

Yes. Delivery fees may vary based on location and other order conditions.

Q23. Can one product be deliverable to my location while another is not?

A:

Yes. Delivery availability can vary by product, seller, location, and delivery method.

Q24. Can I provide detailed directions?

A:

Yes. Detailed and accurate directions can be helpful when a location is difficult to identify.

Q25. Should I provide private information in delivery instructions?

A:

Only provide information necessary to complete the delivery. Avoid unnecessary sensitive personal information.

==========

56. ADDRESS AND DELIVERY SUPPORT INFORMATION

==========

When reporting an address-related problem, customers should provide relevant information such as:

- Order number, when applicable

- Customer name

- Reachable phone number

- Current delivery address

- Corrected address, if applicable

- Area or neighborhood

- Landmark

- Building or compound

- Additional directions

- Description of the delivery problem

Customers should not provide passwords, OTPs, CVV, full payment card numbers, or other confidential authentication information.

==========

57. GENERAL ADDRESS HANDLING PRINCIPLES

==========

Hulu Beje delivery addresses should be:

- Accurate
- Specific
- Reachable
- Appropriate for the selected delivery method
- Supported by useful directions where necessary

Customers should:

- Check the address before ordering.
- Provide a reachable phone number.
- Add landmarks when useful.

- Provide building or apartment information when applicable.

- Request corrections quickly when an address is incorrect.

- Confirm important address changes.

==========

58. GENERAL LOCATION HANDLING PRINCIPLES

==========

Delivery availability should not be assumed solely because a location exists within Ethiopia.

Actual availability may depend on:

- Location

- Product

- Seller

- Delivery method

- Operational conditions

- Road accessibility

- Delivery partner arrangements

- Other applicable conditions

Current order-specific information should be used when determining the status of a particular delivery.

==========

59. FINAL DELIVERY LOCATION POLICY

==========

Hulu Beje aims to make delivery practical by using accurate and useful customer location information.

Customers should provide sufficient address information to identify the intended delivery destination.

Because Ethiopian addresses may vary significantly between locations, customers may need to provide combinations of administrative information, neighborhood names, landmarks, buildings, compounds, roads, phone numbers, and detailed directions.

Delivery availability, fees, and timing may vary by product, seller, destination, delivery method, and operational conditions.

Standard delivery generally takes 3–7 business days.

Express delivery generally takes 1–3 business days where available.

Same-day delivery may be available for selected products and eligible locations, subject to applicable conditions and cutoff times.

Address changes should be requested as early as possible and should not be treated as completed until confirmed.

Customers should provide accurate information and remain reachable when delivery coordination requires contact.

Customer addresses and contact information are private and should be handled appropriately.

When a location or delivery problem cannot be resolved using the available information, the case should receive appropriate additional review.

==========

60. FINAL BUSINESS PRINCIPLES

==========

The following principles apply to Ethiopian delivery and address handling:

1. Use accurate customer-provided location information.

2. Do not invent delivery coverage.

3. Do not invent delivery fees.

4. Do not invent delivery dates.

5. Do not assume every product has the same delivery availability.

6. Do not assume every location has every delivery option.

7. Encourage useful landmarks and directions when addresses are unclear.

8. Protect customer addresses and contact information.

9. Never request passwords, OTPs, CVV, full card numbers, or authentication codes for delivery support.

10. Treat address changes as pending until they are confirmed.

11. Distinguish general delivery estimates from confirmed order-specific information.

12. Consider weekends and public holidays when explaining business-day delivery estimates.

13. Recognize that weather, road conditions, and operational circumstances may affect delivery.

14. Escalate unclear, disputed, or exceptional delivery cases when necessary.

15. Keep customer communication clear, accurate, respectful, and practical.
